NON-FICTION REFRESH

Did you know that in 2018, 75% of our non-fiction books were from 1960-1990? After weeding 7,000 books, our non-fiction is from 1999-today.

For the 2025-2026 school year, thanks to a Community Schools grant, our non-fiction section will be closer to reflecting our class offerings, our diverse population, and our students' current interests, and leave the last century in the past!
