

CAREER DAY

What?

Find a person who can come speak to your classes about their career! It can be anything from customer service to a police officer!

When?

March 15th, 2024

Why?

To teach the students about different career paths to help educate them on adult responsibilities and requirements.

How?

Reach out/network with people you already know! If you cannot find anyone, you can create your own lesson on a particular career path of your choice!

Please help Dale Junior High in our quest to make our students College and Career ready.

We are looking for volunteers from a broad spectrum of the workforce to educate our students about interesting careers. The speaker will be presenting to four classes, and each presentation will last 25 minutes. We have endeavored to impress upon our students the school-to-work connection. What better way than to have experts in the field come to share their “real world” experiences to the students?
